

### DESCRIPTION

The following parts are air flow accessories for JCI thermal dispersion air flow stations: **AD-1252** and **RA-1250**.

The **DMPR-KA001** is an aluminum damper stand-off mounting brackets for the **AD-1252** thermal dispersion probe airflow measuring system. The brackets are shipped in pairs. Probe not included.

The **DMPR-KA002** is a stainless steel stand-off mounting brackets for the **AD-1252** thermal dispersion probe airflow measuring system. The brackets are shipped in pairs. Probe not included.

The **DMPR-KA003** is a stainless steel bell housing mounting bracket for the **RA-1250** thermal dispersion fan inlet sensor airflow measuring system. The brackets are shipped in pairs.

**CAT5e communications jumper cables** in various sizes from 10 to 50 feet. They are used to connect the sensor with the control box for the **AD-1252** and **RA-1250** thermal dispersion airflow measuring systems.

The **DMPR-RA002** is a replacement controller box for the **AD-1252** thermal dispersion probe airflow measuring system.

The **DMPR-RA003** is a replacement controller box for the **RA-1250** thermal dispersion fan inlet sensor airflow measuring system.

**DMPR-KA001**

**DMPR-KA002 Probe Damper Mounting Bracket**

**DMPR-KA003 Fan Inlet Probe Mounting Brackets**

**DMPR-RAxxx CAT5e Cables**

**DMPR-RA002**

**DMPR-RA003**
