

CHANGE THE CODE, NOT THE COVER

... BECAUSE, WHO WANTS TO KEEP UP WITH ANOTHER KEY?

**THE ONLY THERMOSTAT
GUARD WITH A
COMBINATION LOCK!**

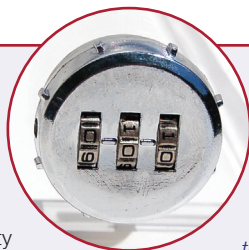

Now it's easier for you to save time, conserve energy and improve your bottom line. **StatGuardplus Combo Guard™** is the perfect tamper-proof thermostat guard for any commercial or residential property and is the **ONLY** thermostat guard with a combination lock, giving you the flexibility to secure a thermostat without keeping track of a key.

This sleek, high-quality guard helps eliminate high electric bills and saves your heating and cooling system from being over-taxed by thoughtless thermostat tampering; giving you control over your heating and cooling costs. Facility managers, realtors, and builders agree that the **StatGuardplus Combo Guard™** will save you money while making your life easier.

The lock can be easily set to any of 1,000 different combinations and can be changed easily and quickly without special tools or disassembly. There is no key to lose, so if you have a personnel change or lose the key, simply reset the lock and change the combination. There will be no more hiring of locksmiths, and no more ripping old thermostat guards off the wall just to replace it with yet another temporary thermostat guard. Choose **StatGuardplus Combo Guard™** today and discover why it's the perfect combination!

"Facility managers will all agree that the StatGuardplus not only eliminates the hassle of a thermostat cover key, but also saves on service calls."

~ Brian Andrew, Telecom Facility Manager, Nashville TN

"Electrical cost for REO properties is a large financial outlay each month & there is nothing on the market that standardizes usage limits with the access flexibility like the StatGuardplus."

~ Maureen Judge, Real Estate Broker, Delray Beach, FL

StatGuardplus
the perfect combination
