## DUAL PIR/ULTRASONIC OCCUPANCY AND LIGHT SENSOR DT-300 SERIES

### DESCRIPTION

The **Wattstopper** low-profile **DT-300** dual-technology occupancy sensor with light level sensor combines the benefits of passive infrared (PIR) and ultrasonic technologies. The sensor mounts in the ceiling with a flat, unobtrusive appearance and provides 360 degrees of coverage. Using SmartSet™ technology, the **DT-300** requires no adjustment at installation. SmartSet™ continuously monitors the controlled space to identify usage patterns.

Using this information, it automatically adjusts the time delay and sensitivity settings for optimal performance and energy efficiency. The sensor assigns short delays (as low as 5 minutes) for times when the space is usually vacant, and longer delays (up to 30 minutes) for busier times. The **DT-305** is a lower cost version of the **DT-300** without isolated relay or light level sensor.

### FEATURES

- **SmartSet™** automatically adjusts sensitivity and time delay
- **Walk-through mode** turns lights off
- **Ultrasonic diffusion and PIR technology**
- **LED occupancy indication**
- **Pluggable terminal wiring**
- **Light level sensing with setpoint**

DT-300

### OPERATION

- PIR technology senses the difference between infrared energy from a human body in motion and the background space. Ultrasonic technology uses the Doppler principle and high frequency (40 KHz) ultrasound to sense motion.
- Once lighting is on, detection by either technology holds lighting on.
- In normal operation, the **DT-300** turns lighting on when configured that one or both the PIR and ultrasonic technologies detect occupancy.
- When no occupancy is detected for the length of the configurable time delay, lighting turns off.
- The **DT-300 Light Sensor** has a configurable setpoint (SP). When the setpoint is exceeded the light output goes to 24VDC to control a remote relay.

### SPECIFICATIONS

<b>Supply Voltage</b> DT300 DT305	Requires external DC power supply 24 V (AC/DC), ±10% @ 43 mA 24 V (AC/DC), 10% @ 35 mA	<b>Indication</b>	LED, Red (PIR) /Green (Ultrasonic) with enable-disable selection
<b>Output</b> DT-300 DT-305	Aux Volts out, Isolated Contact and light output Aux Volts out only on motion detect	<b>Mounting</b>	Ceiling 3.5" to 4" hole, Octagonal box or ceiling direct with spring clips
<b>Aux Output</b> SPDT (300)	Motion initiated (Int.) 24VDC output Motion Int. contact, 30V (AC/DC) @ 1A	<b>Color</b>	White
<b>Light Output (300)</b>	Adjustable 10–300 fc to initiate a 24VDC output	<b>Operating Temperature</b>	32° to 131°F (0° to 55°C)
<b>Technology</b>	Passive Infra-Red (IR) with Fresnel Lens, 40KHz Ultrasonic	<b>Operating Humidity</b>	10-95% RH non-condensing
<b>Occupied Mode (Occ)</b>	Occ.-Auto ON with Single or both technologies with TD OFF	<b>Wiring</b>	De-pluggable terminal strip, 4 (305) or 8 (300)
<b>Approx. Coverage Pattern</b> DT-300 DT-305	360°, 12' ceiling/ 36' dia. circle 360°, 12' ceiling/ 40' dia. circle	<b>Enclosure Rating</b>	Indoor, No rating
<b>Sensitivity</b> <b>Infrared</b>	Adjustable for both technologies 2 Dip switch settings Auto or Min	<b>Dimensions</b>	4.50"Ø x 1.02"D (114.3mm x 25.9mm)
<b>Ultrasonic</b>	POT Adjustment under cover	<b>Weight</b>	1.0 lb (0.46 Kg)
<b>Light SP (300)</b>	Adjustable 10–300 fc to initiate a 24VDC output	<b>Approvals</b>	UL File E101196
<b>Override</b>	Momentary DI input to simulate a "Motion Alert"	<b>Warranty</b>	5 years
<b>OFF Delay Time (TD)</b>	DIP switches (5 seconds to 30 minutes)
