

RIC SERIES

MULTI-VOLTAGE RELAY MODULES

PRODUCT DESCRIPTION

The RIC-1 and RIC-2 Series Relays are multi-voltage devices providing form "C" contacts rated for up to 10 amps. The relays may be energized by one of three input voltages: 24VDC, 24VAC, or 115VAC. Each relay contains a red LED which indicates when the relay coil is energized. To mount the RIC-1 and RIC-2 place the spud through a 1/2 in. (12.7mm) knockout on a junction box. The relays are also packaged with wire-nuts to aid installation.

The RIC-1 and RIC-2 Relays are ideal for applications where remote relays are required for control or status feedback. They are suitable for use with HVAC, Temperature Control, Fire Alarm, Security, Energy Management and Lighting Control Systems.
